PROFESSIONAL PROFILE

I'm a bilingual marketing and creative professional with over three years of experience supporting international customers. I combine content creation, responsive web design and brand communication with customer service, consultative sales and operational support. I use GitHub, Supabase, Canva and Freeform for creative projects, Salesforce and HubSpot for CRM work, and Mission Control to track activities. I bring clear communication, organized follow-up and a customer-focused approach to marketing and operations.

Work experience

HIKINEX

September 2025 - September 2026

Marketing Assistant - Full-time

I created marketing materials, presentations, social media content, campaign concepts and visual brand directions. I designed and built responsive webpages using GitHub and Supabase, organizing content hierarchy, navigation and user flows. I reviewed employee-portal navigation, identified layout and usability issues, and worked on troubleshooting and web prototypes. I used Canva and Freeform for illustrations and visual concepts, alongside AI-assisted research, ideation and rapid prototyping. I tracked work activities, project tasks and progress in Mission Control and used Salesforce in my daily work, with additional familiarity with HubSpot.

Asurion

May 2025 - September 2025

Inside Sales Representative - Full-time

I managed device-related claims and explained repair, replacement and coverage options. I used Salesforce to maintain customer profiles, document case details and track follow-ups. I identified customers without the offered protection product and matched their needs with relevant coverage and sales opportunities. I also coordinated technician appointments, monitored arrivals and followed up on repair delays, keeping customers informed and reporting operational issues for resolution.

Lean Solutions Group

February 2025 - April 2025

Carrier Sales Representative

I sourced carriers, assessed capacity and availability, presented load opportunities and negotiated freight rates. I used HubSpot to organize carrier contact records, log outreach and negotiation notes, and track follow-up tasks for load opportunities, keeping conversations and next steps documented. I coordinated shipment follow-up, maintained communication with carriers, addressed operational issues and updated internal systems with shipment status and relevant details.

Concentrix

April 2023 - March 2024

Customer Service Representative

I explained medical claims, insurance policies and benefits, helping customers understand clear next steps. I coordinated appointments and communicated with healthcare providers, pharmacies and doctors' offices. I handled payments and account updates accurately, maintained clear records and protected confidential customer information.
